

VFD indicator IV-1

The single-digit vacuum fluorescent indicator is designed to display information in the form of a dot and a dash. It features a cylindrical glass housing and flexible leads.

ELECTRICAL CHARACTERISTICS

Luminance: 300–500 cd/m²
Luminescence color: Green
Viewing angle: 60°
Anode and grid voltage: 20–25 V
Filament voltage: 0.85 V
Total anode current: 0.6 mA
Filament current: 2.5–5 mA
Minimum service life: 3000 h
